HOBBIES

- Picture
- Programming
- To walk

ABOUT ME

My name is Ismikhlan Taghiyev. I live in Azerbaijan. I am a 3rd year student of Azerbaijan University of Architecture and Construction. I am studying information technology. As I have been interested in the field of computers since childhood, I continue my education in this field. Currently, I am trying to learn the depths of this field by joining the front-end classes at the Div academy course. I am thinking of advancing in this field in my future life
